

This Statement of Environment Effects was prepared to support Austar Coal Mine's application to modify the existing consent to allow an increase in the height of coal extraction to 6.5m in Longwall Panels A3 to A5.

The document contains extensive technical information the appreciation of which requires a level of comprehension of the issues involved in the proposed mining.

Any publication of the document or any part of it could be misleading and is prohibited without the express written approval of Austar Coal.

Austar Coal disclaim any consequence from any such dissemination.
